FOR AMBASSADOR FROM HARRIMAN

Supplementing 692. NIACT telegram to follow shortly authorizes you to add ~~42~~ 42,000 tons of rice to earlier offer of 50,000 tons from new crop under PL 480 multi-year agreement and further permits 42,000 tons to come forward from existing stocks.

At propitious time to be selected in your discretion you may wish to explain to President Sukarno that in the light of Deputy Prime Minister Leimena's plea December 30 we plowed through all bureaucratic procedures and literally drained the last permissible bag of rice from the U.S. reserve supply.

The immediate availability of this rice to Indonesia could be pointed out as yet another demonstration of U.S. stepping forward to meet Indonesia's needs and is a ~~touchstone~~ touchstone of our good will for the country, this being in the background of all our relationships, including the attempt to be helpful in a resolution without force of the New Guinea problem.

- 1) Regret cannot authorize inclusion specific amounts third-country cotton for second and third years Title I PL 480 agreement. Cotton available for Title I programming not always adequate meet demand and amounts available for programming CY 1963 and 1964 cannot be accurately predicted at this time. Therefore, only firm offer we can make GOI now for 1963 and 1964 is quantities already earmarked for domestic processing. Second paragraph A-33 referred to impossibility concluding three-year agreement in which quantities all commodities would be specified for first year only, which is entirely different matter.
- 2) Tobacco consultation has been completed and tobacco may now be included in program. Consultations on rice and wheat ~~flour~~ in progress on urgent basis. Will notify you promptly.
- 3) You authorized make following changes in text paragraphs 1 and 2 of Article I of draft sales agreement. You should make it clear to GOI that increase in wheat and rice is subject to third country consultations. It should also be clearly understood \$15 million wheat flour being offered only on understanding GOI agrees to 105,000 MT usual marketing requirement each year of agreement.

Pursuant reference telegram, I have seen Djuanda and made points as requested, urging that we expedite signing of Bell Contract for reasons stated.

Djuanda's first reaction was that in current WNG situation inaccessibility of top secret financial data to Bell would nullify Bell's effectiveness as regards financial and economic consultancy. I pointed out that this affected only that part of contract dealing with Bell's personal confidential services to first Minister, but remainder of contract implementing US contribution to 8-year plan should in no way be affected. Djuanda agreed that projects, special purposes, engineering and resource phases of contract not necessarily affected.

When draft of proposed contract arrives, I plan immediate followup this conversation.

ACTION: Amembassy BANGKOK

Your understanding correct 42,000 MT rice to be made available to Indonesia as addition to first year multi-year Title I PL 480 agreement is from crop year ending July 31, 1962. This rice intended for delivery as soon as possible after signing of agreement, with remaining 50,000 MT for first year multi-year to be delivered after August 1, 1962, from next year's US crop.

Following quantities rice ~~xxxxxxxxxxxxxx~~ from current crop year have been or will be programmed to Far Eastern countries under Title I PL 480: India, 134,000 MT (under Agreement of May 4, 1960); Indonesia, 142,000 MT (100,000 MT under Agreement of October 26, 1962, as amended November 17, 1962, 42,000 MT presently subject consultation RTG); Viet Nam, 100,000 MT (50,000 MT under Agreement December 27, 1962, 50,000 MT ~~xxxxxxxxxxxxxx~~ presently subject consultation RTG); total, 376,000 MT.

Unlikely any additional amounts rice available for Title I programming Far Eastern area during crop year ending July 31, 1962. This forecast assumes US cash sales will continue same rate as past four months and no emergency requests received (such as Viet Nam request following Mekong River flood).
